

### OSDP-1420 Reader Interface Module with 4 line by 20 character LCD

#### Features:

4 Line by 20 Character LCD  
Adds OSDP display functions to any card reader

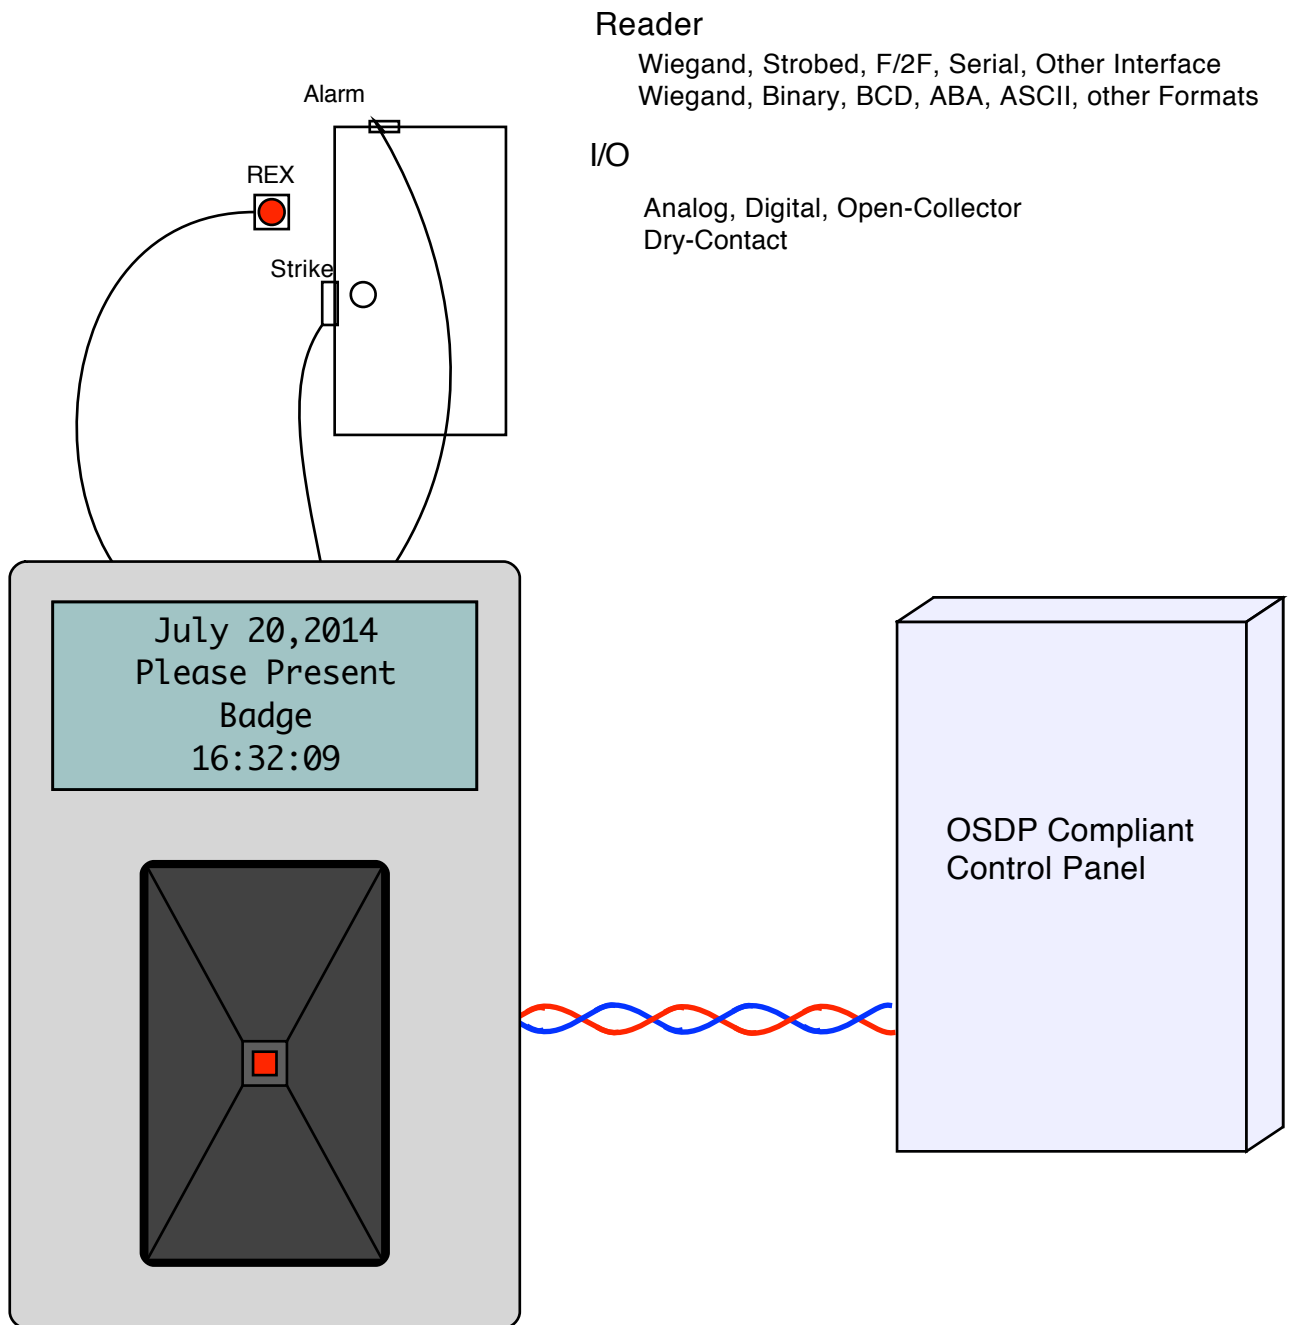

#### Interfaces and Formats

Wiegand ( 4 to 300 bits)  
F/2F (Binary, ABA)  
Strobed ( Wiegand, ABA )  
Serial (RS-232, RS-485)  
ABA  
BarCode  
Others

The OSDP-1420 adds OSDP LCD functions to any card reader. The module also provides a convenient mounting surface for most installation scenarios.

# Reader-Side Application

All reader and I/O signals are monitored and controlled by the OSDP compatible control panel.

Power for the OSDP-1000 can be supplied by the panel on a separate pair or be supplied locally at the door.
